

Technical drawing of a flashlight head in cross-section, showing internal components and dimensions. The drawing includes a dashed centerline and the following dimensions and labels:

- Overall length: $51.1^{+0.3}_{-0.3}$
- Overall diameter: $\varnothing 24.3^{+0.2}_{-0.2}$
- Label "a" indicating a distance or length.
- Internal components labeled with circled numbers: 1, 2, 3, 4, 5, 6.

A line drawing of a medical device, likely a catheter or probe. It features a long, thin, cylindrical tube extending from a complex, multi-ported head assembly. The head assembly has a circular top with several small, dark, circular ports or sensors. The body of the device is rectangular with rounded edges, and the tube is attached to one side. The drawing is a simple line art illustration.

Kodierungen/coding

The diagram shows a 4-digit part number structure: C003-04-XXX-Y. The first two digits '04' are enclosed in a box. The last two digits 'XX' and 'Y' are each enclosed in their own boxes. A callout line points from the text 'Gehäusecodierung fuer Steckverbinder' (housing code for connector) to the '04' box. Another callout line points from the text 'Codierung fuer Kabellänge (mm)' (coding for cable length (mm)) to the 'XX' box.
